

Hydraulic drive & control components:

- pumps, motors and cylinders,
- pressure and flow control valves,
- directional valves,
- proportional valves and electronic control units.

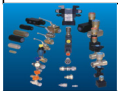

[Duplomatic Program Overviev - version PL](#)

Heat exchangers for the hydraulic drives & control units as well as mobile units :

- Air-Oil coolers,
- Water-Oil coolers,
- Cooling Units. www.sesino.it

Flow control valves:

- check, double-acting and shutt-off valves,
- in-line, cartdrige and manifold mounted,
- materials: steel, stainless steel, brass www.steijnblas.com passivated.

Pipe clamps: For dia. up to 800 mm

Materials:

- carbon steel,
- stainless steel,
- polypropylene,
- polyamide,
- aluminium. www.pieffeci.com

- hydraulic linear cylinders with positioning,
- rotary actuators,
- synchronizatory hydrauliczne,
- hand pumps. www.agop.it
